Hotel Room Service Robot

Revised: 06-11-2026

Premium Hotel Robotic Delivery Solution

This hotel delivery robot elevates in-room service with its efficient 4-compartment structure and sleek, well-finished design, ensuring reliable, hygienic deliveries for all guests. Boasting a 90L large capacity, it handles four guest rooms in a single run, matching the output of two dual-compartment robots and reducing guest waiting time. It integrates our proprietary fresh air system and self-cleaning UV sterilization, which activates auto ventilation on hatch opening and supports scheduled or manual disinfection to ban odors and maintain hygiene. Capable of autonomous elevator riding, it enables 24-hour multi-room delivery with full-scenario IoT linkage and inductive anti-collision, smoothly navigating bends and crowded hotel spaces. It features timeless styling, a high-definition touch screen, premium paint finish and lively animated expressions, delivering a friendly and high-end service experience while easing hotel staff's workload.
